DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,4 & 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Patent Application (JP 2001-201106-A) . The Japanese patent application discloses and air conditioner comprising an air flow, a heat exchanger for cooling, and an adsorbing/desorbing member type heat exchanger.

Allowable Subject Matter

Claims 3,6,9 & 12 are allowed over the prior art of record.

Claims 7,8,10 & 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
